

Rise HR Software

Everything you need in one HR solution

Reclaim your time with an intuitive single HR system of record to maintain all company and employee information, store digital paperwork, and more. Rise HR software empowers employees and managers to keep their own information up-to-date in your HR system so you get fewer requests and can finally focus on what matters most: **your people**.

Information at your fingertips

Tap into any information you require—contracts, tax documents, job descriptions, employee data, PTO, analytics reports, benefits, and performance evaluations—whenever and wherever you need it.

Simplify time off

Help employees understand time off policies and easily book time off. Make it simple for managers to review and approve requests, plan team capacity, and avoid staffing shortfalls.

Keep all your tools in sync

Rise seamlessly integrates your HR software with payroll, ATS, time and attendance, messaging, and other mission-critical software.

Personalize the employee experience

Get a bird's eye view of your company, enable managers to see how their teams are doing and help employees see their entire journey within your company at a glance.

Track the details that matter

Store and share important documents and easily access accurate reporting, history and auditing. Plus you can tailor your HR software to track employee birthdays, personal preferences, and more.

Keep an eye on employee engagement

Get actionable insights into how engaged your employees are. Collect feedback on what's working and what can be improved with intuitive surveys.
