

Rise Mobile App

Empower your employees on the go

Give your team convenient access to Rise's all-in-one platform from the convenience of their mobile devices. Employees can view time off balances, submit requests, and get approved in an instant—plus they can access their personal profile, the company directory, and more.

Access your personal dashboard

View a quick summary of current time off balances, pending time off requests, and upcoming approved time off—plus you can access personal documents, the latest company content, and other useful resources.

Understand your time off policies

Get clear summaries of your time off policies and find out how much time off has accrued, how much you've used, and whether it can be carried over. You can also access your own time off history at the touch of a button.

Request and approve time off

Employees can submit time off requests to their managers who are instantly notified. Managers can easily review and approve requests, triggering a notification right back to employees.

Find out who's away

Simplify your time off scheduling by allowing employees to view their team or departmental calendar showing who will be away on any given day.

Access your team directory

The Rise mobile app gives you a complete listing of all employees, making it easy to find colleagues, view employee profiles, and contact each other by email or phone.

100% secure and compliant

Your sensitive data is secured with encrypted password protection and optional biometric fingerprint login for extra flexibility.
