

# Rise Time and Attendance

Understand what's at the heart of your workforce

Get the insight you need on your workforce—when and where you need it—to help control labour costs, minimize compliance risk, and improve productivity.

From timecard management and labour cost tracking to employee scheduling and absence management, you'll save lots of time and drive better results with more informed decision making.

## Capture accurate timekeeping data

Automatically capture labour information from time clocks, web entry, telephony, and mobile applications.

## Simplify routine tasks

Quickly access your dashboard for timekeeping analytics and frequently performed tasks, such as approving timesheets, correcting exceptions, responding to time-off requests, and more.

## Minimize compliance risk

Receive alerts for exceptions, such as missed punches, early/late arrivals, or skipped breaks that violate your policies and increase compliance risk.

## Automate attendance tracking

Drive more accurate enforcement with automatic updates to employee attendance points/occurrences with no manual intervention required.

## Unlimited reporting

Easily assign daily, weekly, or configurable patterns to schedules. Plus you can track scheduled, worked, and projected hours to more effectively forecast.

## Control labour costs

Cut payroll waste and gain valuable insight from real-time visibility into workplace trends and issues that can affect your performance.
